FOURTH LIBERTY LOAN

MERICA'S fourth Liberty loan drive is scheduled to start on A October 15. During the last Liberty loan campaign more than \$4,000,000,000 was subscribed in four weeks. This time, however, the drive will last but three weeks and the amount sought for will be higher than the total receipts of the third Liberty loan.

The money obtained through the sale of Liberty bonds helps the government win the war, but it does not do a particle of good if the persons owning such certificates immediately put them on sale after the drive has ended. Unless a person is willing to hold his Liberty loan until the government desires to call them in it is unpatriotic to purchase the bonds, for if they are to be resold, where does the government profit by the transaction? The only vey to win the war is to buy as many as one can afford and hold

GERMANY IS SQUEALING

I UNKERS of Germany are beginning to squeal. They are slowly J being made to realize that the idea of "world conquest" is as ancient as the Sphinx and can not be solved. "The "little army" of the United States is striking fearlessly at the heart of Germany at the St. Mihiel sector.

Several years ago the Hun scoffed the allies when they were requested to desist from employing poison gas, dum-dum bullets, and liquid flame, and the wanton devastation of cities in France and Belgium. Protests against air raids on Paris and London also made the Tentons grasp their beer-laden stomachs and shake with

war map. All of the different shaped lines in the newspaper war maps mean something.

Next summer will be the one that will win the war. Troops on the Macedonian, Russian, Italian and western fronts will start their gigantic drives. Without a thorough knowledge of each of these fronts the average reader will easily become confused and the war reports will be nothing but a jumbled mass of information. The only way to eliminate this chaos is to make a systematic study of the war map. Make it a point to learn by heart ten, or twenty, or thirty names of towns on each of the war fronts every day.
